REQUIREMENTS

- Please contact our sound engineer at least one week before the show
- PA should be prepared (tested and checked) at least one hour before the band's arrival
- The person responsible for the PA must be present at all time
- The height from the stage floor to the ceiling mustn't be less than 2.5 m
- Please set the multimedia projector and the screen on the stage
- Please set the fog machine ready on the stage
- We would also require one dimmered channel on the stage (power output) for our lamp (500 W, 230 V)
- Set up a small table (min. 60 cm high) for our gramophone
- We would also require a small ladder to hang our flags
- Backstage should be prepared at least one hour before the sound check
- In any case, any difficulties, questions or changes - please contact our sound engineer
